

Alexandria Gazette

THURSDAY EVENING, JANUARY 6.

SEVENTH HABITS.—The alarming increase of late years in the proportion of sudden deaths is beginning to attract the attention of statisticians. It is largely due, no doubt, to more general mental activity without a proportionate increase in bodily exercise. The busy life of the age demands a constant hurry and excitement, and taxes the physical powers to the utmost to keep up in the race for money getting. One of the disadvantages of introducing facilities of transportation is the temptation to cut short time and distance by the habitual use of steam cars and horse cars even in the daily transit from the dwelling to the office. A sedentary occupation begets an almost unconquerable aversion to regular exercise, and the result of yielding to the indisposition is that the mental powers, kept at a steady tension for years, will some day suddenly relax and leave their abuser either helpless or a helpless paralytic.

To literary and professional men is vigorous and regular exercise especially needed, and the example of the efforts in a hale old age will suggest themselves to every one. The exercise needed to keep the mind in tone and the physical forces unabated, up to the four score years and ten, is not a daily spin behind a fast-stepping hearse, but the long swinging gait which runs the walker over a country road at the rate of four or five miles an hour, and sends the blood pulsing with invigorating life to every portion of the system. Two hours exercise a day, so far from being a waste of time, is a positive economy, supplying the nervous force for more and better work in ten hours than the man of street cars and carriages can get out of twelve. —New London Telegram.

MEDICINAL.

Perry, Ga., April 14, 1879.

I have watched the use of the medicine now known as "Swiss Syphilis Specific" over fifty years, and have never heard of a failure to cure when properly taken. I commenced the use of it on my slaves, between 1850 and 1855, as also did a number of my neighbors, and in every case that came within my knowledge effected a cure. In 1855 Geo. Walker, bought at auction a slave not warranted. After two purchases it was discovered that he had Syphilis for twelve years. His head was without hair on it. He treated him with this remedy, and in four weeks he was sound and well, and in a short time had as fine a head of hair as was ever owned by a negro. He owned this slave many years, and he never had any return of the disease, nor lost a day's work.
